

Farid Saadat

Mashhad, Saremi 50.1, no.205, 9178844851 | +989307924292 | faridsaadat98@gmail.com

Objective

As a Linux system administrator and software engineer, I have passed many courses related to Linux and DevOps. I am also good at python and love to automate things in the world.

Education

HIGH SCHOOL DIPLOMA | 2016 | ALAVI HIGH SCHOOL OF TEHRAN

- Major: mathematics

BACHELOR | 2021 | AZAD UNIVERSITY OF MASHHAD

- Major: civil engineering

Skills & Abilities

LINUX

- I have been a Linux system administrator for about 5 years now. I can handle most problems in Linux servers, and also can setup new services as needed by the company

DEVOPS

- I have some experience as a DevOps engineer as well and can help automating backends and setup cloud infrastructure.

PYTHON

- I have about 1 year of experience programming in python. I can write and debug python programs.

TEACHING

- I love teaching others what I know. I enjoy having sessions with people helping them improve themselves.

NETWORK

- I have few experience in network engineering as well because of it's relation to my past jobs. I can find out most issues in the network and solve issues afterwards.

Experience

SYSTEM ADMIN | ALMAHOST | 2016-NOW

- I have been working with AlmaHost as a system admin. AlmaHost works a webhosting company and I was one of their staff

SEO MANAGER | GHABOULI | 2018-2020

- As a SEO (search engine optimization) manager, I had to plan strategies for website's SEO scores.
